

CAMPLEX®

BROADCAST FIBER OPTIC SOLUTIONS

Complex opticalCON Chassis Mount Cables to Pre-terminated ST and LC Adapters

DUO to Duplex (2) LC Breakout Adapter - Multimode

The lightweight, yet rugged, design makes this adapter ideal for strapping to cameras and other gear.

Internal Distribution Hybrid Breakout Cables—No Power

Connect your Neutrik opticalCON Duo/Quad cables to standard singlemode or multimode LC or ST fiber optic connectors with these handy in-line adapters by Complex. Rugged, yet lightweight, these units are designed to strap to cameras and other gear.

Each channel is clearly numbered and features one meter Techflex protective tubing for years of professional use. Included is an opticalCON rubber dust cap for maximum protection.

The Neutrik chassis connector acts as a "feed-through" allowing simplified installations and features an automatic sealing cover for maximum dust and dirt protection and a push-pull locking mechanism for safe connection.

Cables are fully tested to ensure reliable performance in critical applications and are available as LC or ST, singlemode or multimode, and in custom lengths.

QUAD to Four (4) ST Breakout Adapter - Singlemode

Features

- Rugged and lightweight
- Rubber dust caps provide protection
- OFNR cable jackets/Color coding
- Low insertion loss and low return loss
- Waterproof Neutrik NO2-4FDW-A chassis connector with automatic sealing shutter
- Factory tested
- Made in the USA by a Certified opticalCON assembler

We build custom opticalCON, tactical, SMPTE, and hybrid fiber cables in a COCA certified, and LEMO and Canare trained fiber shop with full repair services.
