

Fire Protection Specialty Filter

LFG280FHDP

276 x 276 x 12.7mm (10.87" x 10.87" x 0.5")

Orion Fans Pyroclide filters meet stringent flame safety standards for fire containment in electronics enclosures by preventing flames from propagating through the vent panels. The pyroclide coating has an ASTM E-84 Class A rating with low flame spread and low smoke index values. A thin coating in the honeycomb cells reacts on exposure to flame and expands rapidly, to prevent flames from propagating through the vent panels.
